

OUTLAW KILLED IN BATTLE WITH POSSE NEAR THE BORDER

Lina Baiza, Charged With Killing River Guard Howard, Resists Arrest.

Marfa, Texas, April 6.—Lina Baiza, a Mexican outlaw, who was charged with killing Jack Howard, a river guard, in February, 1913, near Pecos, has been killed by a posse of officers when he resisted arrest. In the posse were W. H. Chastain, of Marfa; Charles A. Craighead, river guard; and John H. Baiza, chief deputy inspector for the Texas Cattle Raisers' association, and Sam Neill, river guard.

The posse came upon Baiza about 15 miles below Pecos and when he resisted arrest and started shooting, he was shot down by the posse members. His horse was also killed and fell into the Rio Grande.

Grass planting was started today in Sunset Park, 34 rose bushes have been planted in the park and beds are being prepared for cannaes.

Marfa is having a considerable building boom and a number of carpenters from other places are finding work here. F. A. Mitchell is having a two story barn and corral built. A \$1200 addition to L. W. Roberts' residence has been completed. Mrs. M. M. Smith is having plans drawn for a new residence. Work is to start at once on the new Presbyterian church. An addition is being built to the John A. Yates property. G. C. Robinson is having plans drawn for a handsome residence. Mrs. J. S. Howard, of Valentine, has moved to Marfa and is having a residence built. She also will have four new houses erected. Mrs. J. A. Yates is having plans drawn for a residence. Rev. J. R. Jacobs contemplates building a residence near the high school.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by Potter Drug Co.—Advertisement.

RING IS FOR COLOUITT AGAIN FOR GOVERNOR

El Paso Officeholders Are Against Ball, Who Is an Original Wilson Man.

Governor Oscar B. Colquitt for a third term as governor of El Paso, the choice of the "ring" politicians. While the strictest sort of a guarded silence has been maintained and there have been no open attacks, there is an indication that the "ring" is going to bring pressure to bear in the effort to place Colquitt in the race as the third time governor. While that might be establishing a precedent in state politics, it is strictly in keeping with local "ring" politics, rotation in office being to the ring politicians the last resort.

The "ring" is afraid of Tom Ball, and it doesn't like him because he was Wilson, and while the politicians will not openly say that Colquitt is their choice, they will admit that they believe Colquitt could "win in a walk" if he ran against Ball.

Ball was one of the original Texas Wilson men and helped to unseat the El Paso ring at the Houston convention. He is now in the race for the nomination of the state delegation from El Paso county will be selected at the meeting to be held in the 31st district court room tonight. The delegation will be ready to attend the state convention at Fort Worth, if it is held. Should that convention be called off, the "ring" politicians will have shown their good faith anyhow.

Those who presided as chairmen at the precinct primaries in El Paso convention, when it went there to boom Judson Harmon. The ring cherishes a large sized grouse as a result and is for anybody to beat Ball. Then, Colquitt is a free and the ring is anything but free.

The "ring" is anxious for the state convention to be held at Fort Worth on April 14. The state delegation from El Paso county will be selected at the meeting to be held in the 31st district court room tonight. The delegation will be ready to attend the state convention at Fort Worth, if it is held. Should that convention be called off, the "ring" politicians will have shown their good faith anyhow.

Seven Precincts Report.

Up to noon Monday only seven precincts had sent in the lists of their delegates to county chairman Robert Holiday. These were all city precincts.

A MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.—Advertisement.

May Apple Root

Oldest Known Medicine Mentioned in Genesis and Songs of Solomon

"Mandrake" is the Biblical name of what we call May Apple. Encyclopedia Britannica defines the word Podophyllin says: "Mandrake or May Apple Root, a popular remedy much used by those averse to calomel or other mercurial preparations, hence has been called Vegetable Calomel."

Our grandfathers used May Apple Root, tea or powder as a Liver Regulator. It has survived by virtue of its merit as a starter of bile. Our forefathers said: "It makes the Liver act"—which is true in the sense that it releases the bile from the liver. Bile is the one natural germicide that overcomes germ growth in the intestines. A free normal flow of bile.

PROMINENT PASTOR GIVES ENDORSEMENT

Tells of His Experiences With the New Tonic Plant Juice and Recommends It.

Rev. E. L. Whitson, Methodist minister at Humble, Texas, who is very well known in all parts of the state, made the following statement: "I am of a very bilious temperament and subject to bilious attacks every spring, this spring I seemed more debilitated than usual. I am usually considered a hard worker, but I was listless and negative with no vim or vigor. My calling, the ministry, requires the best mental efforts we are capable of and after reading the experiences of many persons that I knew I decided to try Plant Juice. I can conscientiously say that it has helped me wonderfully and I am glad to recommend it to anyone as a sure treatment for the liver and a good tonic and vitalizer."

For the relief of stomach troubles, for the eradication of biliousness, in fact for the complete restoration of all derangements of the stomach, kidneys, liver or blood there is nothing to equal Plant Juice. For sale at Kelly & Pollard's Drug Store.—Advertisement.

Will Build a Cathedral.

Catholics of El Paso are to build a beautiful cathedral on the corner of Mesa avenue and Oregon street, to cost about \$60,000. It is to be named St. Patrick's, that name having been chosen by the Daughters of Erin. The building of the cathedral has been given to Mrs. Della Lane when she contributed \$10,000 toward the building of the edifice. She is treasurer of the Daughters of Erin, chose that society to give the new church its name.

With the building of this new church, and the establishment of a new diocese here, some early history of the Catholic church in El Paso is brought to light. The Catholics of today know that the little stone chapel on North Oregon street, at the head of Wyoming street, is the first Catholic church erected in El Paso. However, several of those who took a great interest in the building of this church are still residents of this city. It was built in 1832.

Early Catholic History. In the month of October, 1831, Jesuit priests from the province of Colorado and New Mexico, were appointed by bishop Salpointe, of Tucson, Ariz., to take charge of the mission of the Ysleta and adjacent territory within the boundaries of the United States. This included El Paso. Rev. Charles Montanari, now residing at the Sacred Heart rectory on South Oregon street, was the first superior, while his assistant, Rev. Joseph Montanari, the latter celebrated mass once a month or so at the home of some Catholic resident. Tom Kelly built the first altar in El Paso. So small were the homes at that day that it soon became impossible for all the Catholics to attend services and Mass was celebrated at the home of a church. E. V. Barrien, G. W. Emerson and Mark Hynes got together and worked toward the end of building a church. They collected sufficient to buy four lots on North Oregon street at the corner of Wyoming street, for \$425 and on Christmas day, 1832, the stone chapel, then named St. Mary's, was opened for public worship with father Montanari as the celebrant of the mass.

The mass of Di Palma later came and built the brick house adjoining it on the north, and used it as a rectory and school. The rectory became the headquarters of the Jesuits who, up to this time, had been located at Ysleta. Rev. Felix Palma was superior of the church. The following year, Rev. Chas. M. Pinto, the present superior and vicar general of the Dallas diocese for the district of El Paso, was placed in charge. He recognized the need of more church buildings and the necessity of providing separate quarters for the English speaking and Spanish speaking members of the congregation. Other Churches Are Built.

They then ground a southeast corner of Myrtle avenue and Campbell street was purchased and thereon was erected the Church of the Immaculate Conception. At the same time, in 1833, the church of the Sacred Heart, on South Oregon street, was built. During the first year of its existence the Immaculate Conception church was attended by various pastors, among them fathers Pinto, Diomedea, Krenz and others. In 1834 Rev. Samuel Cabill was placed in charge and continued so until April 1839. During the following two years the pastors were Revs. Joseph Arthur, Raphael Dorci and Edward Barry. In the summer of 1891 the present rectory at 18 North Campbell street was built and in the month of September Rev. Francis C. Roy was

appointed pastor and has been in charge since that time.

In 1902 the church was again enlarged, the sanctuary being converted into a sanctuary adding 16 more feet to the seating capacity.

The growth of the church northward necessitated making more accommodations for the Catholics in the northern part of the city and St. Mary's on North Oregon street, renamed The Holy Family chapel, was reopened. Rev. John F. Weir celebrating mass when it was reopened on Jan. 1, 1906. He served as a pastor until August of the same year when father Dorci replaced him. The latter was succeeded by Rev. Anthony J. Shuler in 1907 and he continued to serve in that capacity until October, 1910, when Rev. Leo Krenz was appointed and served until ill health necessitated his removal in June, 1913.

Last October Rev. Edward Barry, of Denver, Colo., was appointed to take up the matter of building a new church. The Holy Family chapel was closed in order that all might attend the church of the Immaculate Conception, but is now being used for services for the refugees from Mexico.

A fair was given just before Lent and over \$5000 was realized therefrom, while other contributions have made a fund of about \$20,000 with which work is to be started. On next Sunday the Easter offerings at the church of the Immaculate Conception will be devoted to the new cathedral fund.

MEXICO DOES LARGE BUSINESS DESPITE DEMORALIZING WAR

Washington, D. C., April 6.—Despite the revolution in Mexico and its devastating effects, trade relations between the southern republic and the United States have not been disturbed. A report of the department of commerce shows increased activity in commercial transactions between the countries during the last year.

Mexico's foreign trade amounted to \$248,000,000. The United States received 77 percent of the \$150,000,000 involved in exports, and 56 percent of the \$98,000,000 of imports.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back Hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have tingling pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Advertisement.

This Mammoth Sale Surpasses All Former Records and we Expect Tomorrow to Be the Biggest Day of All

TOMORROW will bring an increased number of value-seeking shoppers to this store—tomorrow will see many dollars for those who accept the economy opportunities presented by this underselling Colored Wash Goods Event. Although the values offered are certain to be one of the strongest factors in inducing you to buy during this sale, it is by no means the sole argument that should influence you to buy these goods at this time. Aside from the magnificent values offered you will find the assortments, varieties, styles and qualities of unparalleled interest and attraction—more alluring than have ever been presented in any former event.

Tuesday's visitors will find added attraction in many new lots that have just arrived since this sale opened—and which will be shown then for the first time.

Plenty of Salespeople to Serve You Promptly

The General says:

"Some roofing jobbers and dealers refuse to handle Certain-teed Roofing because the profit is not big enough to satisfy them."

They have not realized that service to their customers builds the best business for themselves.

The dealer who is doing the biggest roofing business in his community is the dealer who handles Certain-teed Roofing—because he recognizes service to his customers as the biggest part of his job—and more customers as his reward.

He knows, just as you know, that Certain-teed Roofing will give you the best, the longest and the guaranteed service. He is willing to take his modest profit on Certain-teed Roofing in preference to an inflated profit on any other brand, because he knows there are many more roofing buyers just like you who know and have faith in Certain-teed Roofing and in him.

—guaranteed for fifteen years—backed by the world's three biggest roofing mills, endorsed by your local dealer whom you know and who meets you face to face when he sells it to you.

There is a dealer of this calibre in your neighborhood. He will sell you Certain-teed.

Certain-teed Roofing is sold at a reasonable price everywhere by dealers who believe in giving unsurpassed quality at a fair profit. The amount of Certain-teed Roofing required for an average roof, say ten squares, will cost less than \$5 over the cheap, mail-order grade. This small initial cost is saved many times in the fifteen years' wear which is covered by the manufacturer's guarantee.
